

NDC CONVERSION OVERVIEW

Leila Yim Surratt

Chief Operating Officer
CCAP

November 30, 2016
5th MAIN Asia Dialogue
Da Nang, Vietnam

Dialogue. Insight. Solutions.

AGENDA

- Why convert NDCs
- Back to Paris – NDC conversion as part of the UNFCCC and GCF cycles
- What is a “converted” NDC
- Review what NDC conversion entails
- NDC investment strategy
- Capacity development needs

NDC CONVERSION

- For NDCs to achieve real impacts, they must be **converted** into policies, measures, and financeable investment strategies

WHY CONVERT AN NDC?

Promote ambition

Achieve synergy – mitigation, resiliency and development

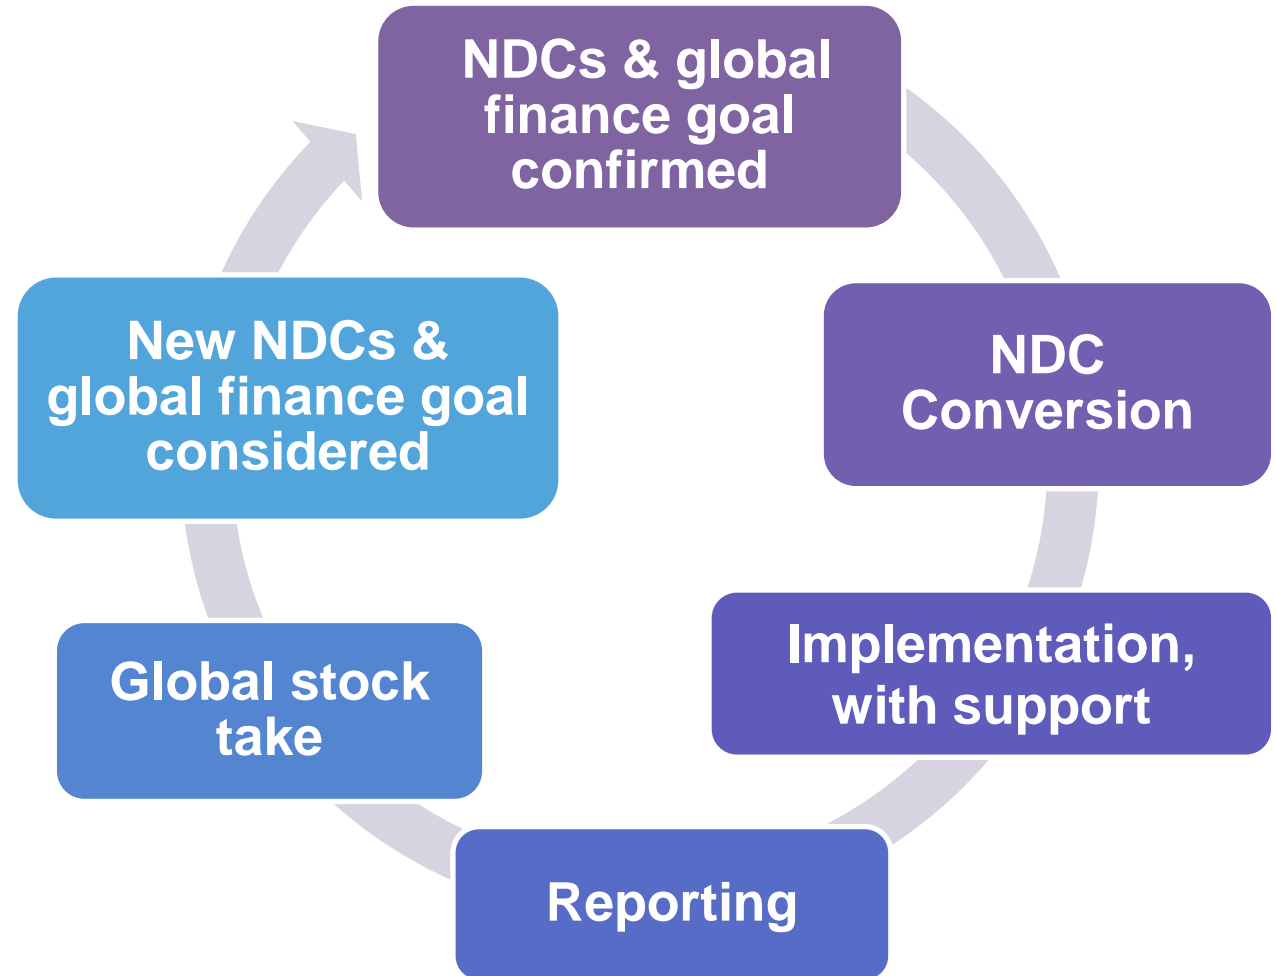

Optimize use of domestic resources

Attract private sector investment

Make proposals more attractive to funders

NDC CONVERSION AND INCREASED UNFCCC AMBITION

- Ongoing domestic policy planning process that is critical to achieving global goals
- Each step of the cycle is repeated every 5 years as defined in Paris Agreement

THE GCF FUNDING CYCLE AND NDC CONVERSION

- The successful conversion of NDCs will deliver strong proposals to funders, including the GCF
- Strong, programmatic proposals can accelerate financing and make the case for additional replenishments.

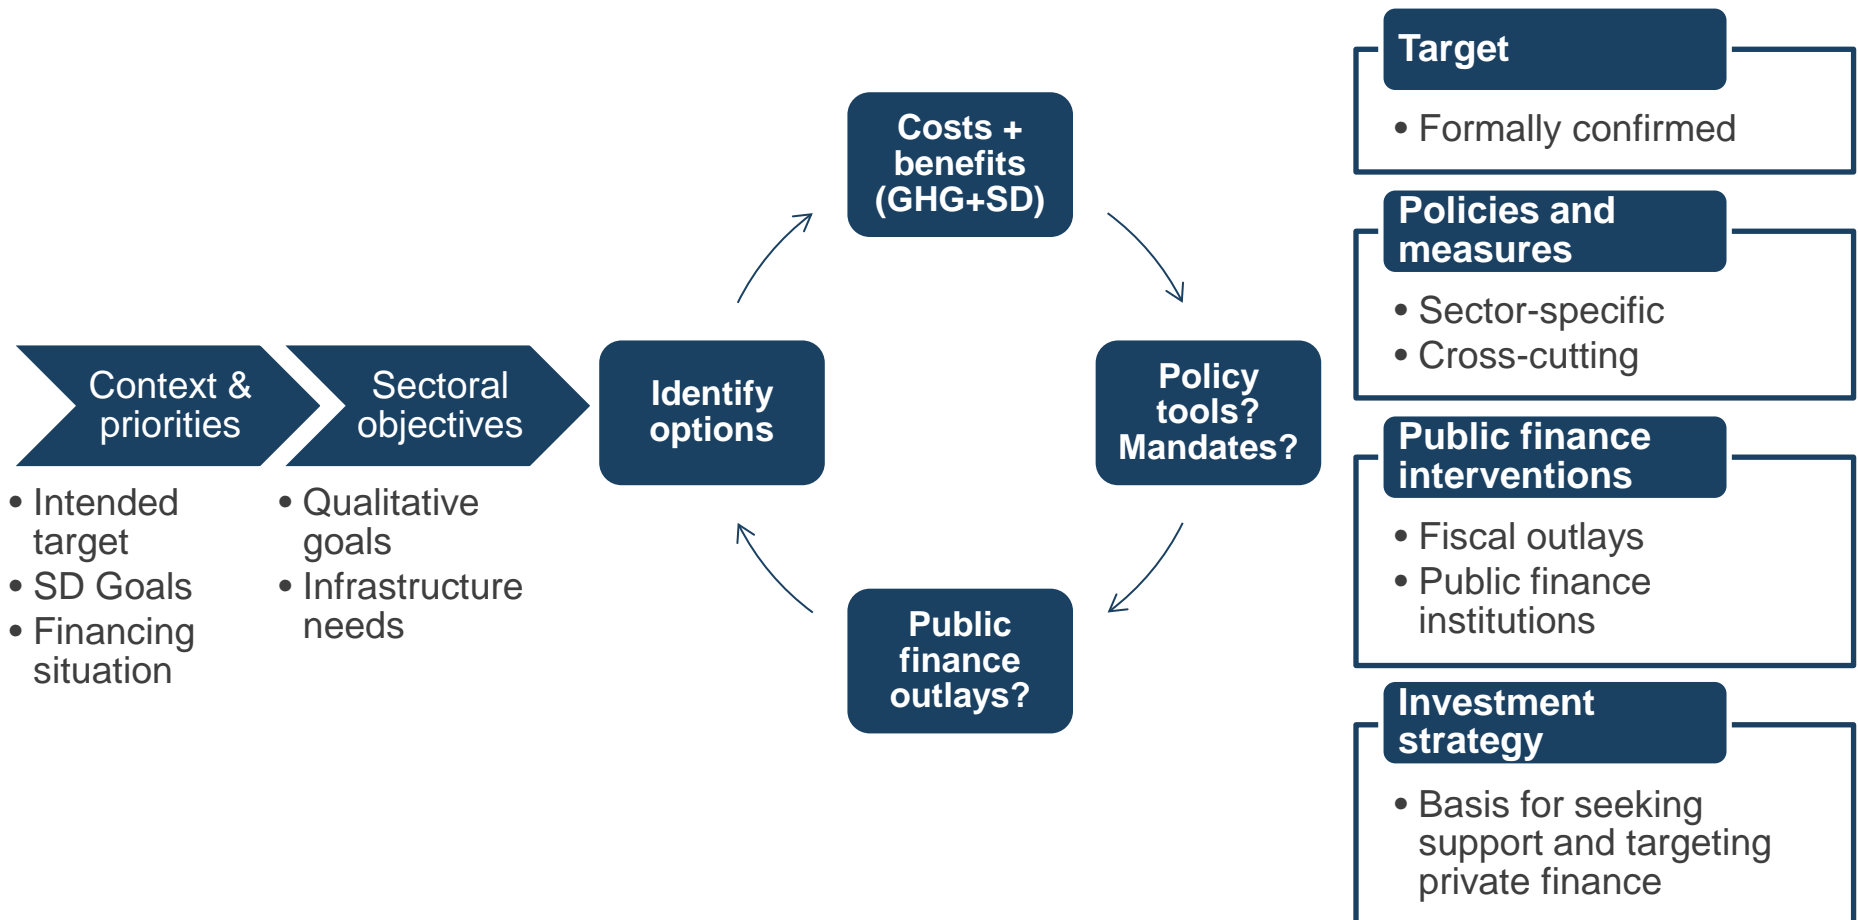

HOW IS AN NDC CONVERTED?: OVERVIEW

*National circumstances
and political priorities*

*Analysis of options and
trade-offs*

Converted INDC

WHAT IS IN CONVERTED NDC?

A converted NDC is a comprehensive national plan to achieve the NDC target, achieved through a national policy-making process.

Target

- Formally confirmed

Policies and measures

- Sector-specific
- Cross-cutting

Public fin. interventions

- Fiscal outlays
- Public finance institutions

Investment strategy

- Basis for seeking support and targeting private finance

CAN NDCS ATTRACT FINANCE?

- Roughly half of the 39 NDCs CCAP studied estimate total investment costs
 - One fifth provide full costs by sector & specific measure
 - 14% present an overall financial request
- Don't fully reflect factors that will inform funding
 - Cost, availability of domestic finance
 - Info on costs and gaps relevant to programs
 - How a country will use its domestic resources
 - Basis for requesting support
- Publishing an “NDC investment” or “National Climate Finance” strategy can provide this info

POTENTIAL ELEMENTS OF AN NDC INVESTMENT STRATEGY

What is the overall picture for climate investment in the country?

- Availability of financing
- Capacity of financial sector
- Key economy-wide barriers

What investment/financial intervention is needed to meet INDC goals?

- Financial flows to be transformed
- Infrastructure needs
- Estimation of costs
- Program-level gaps

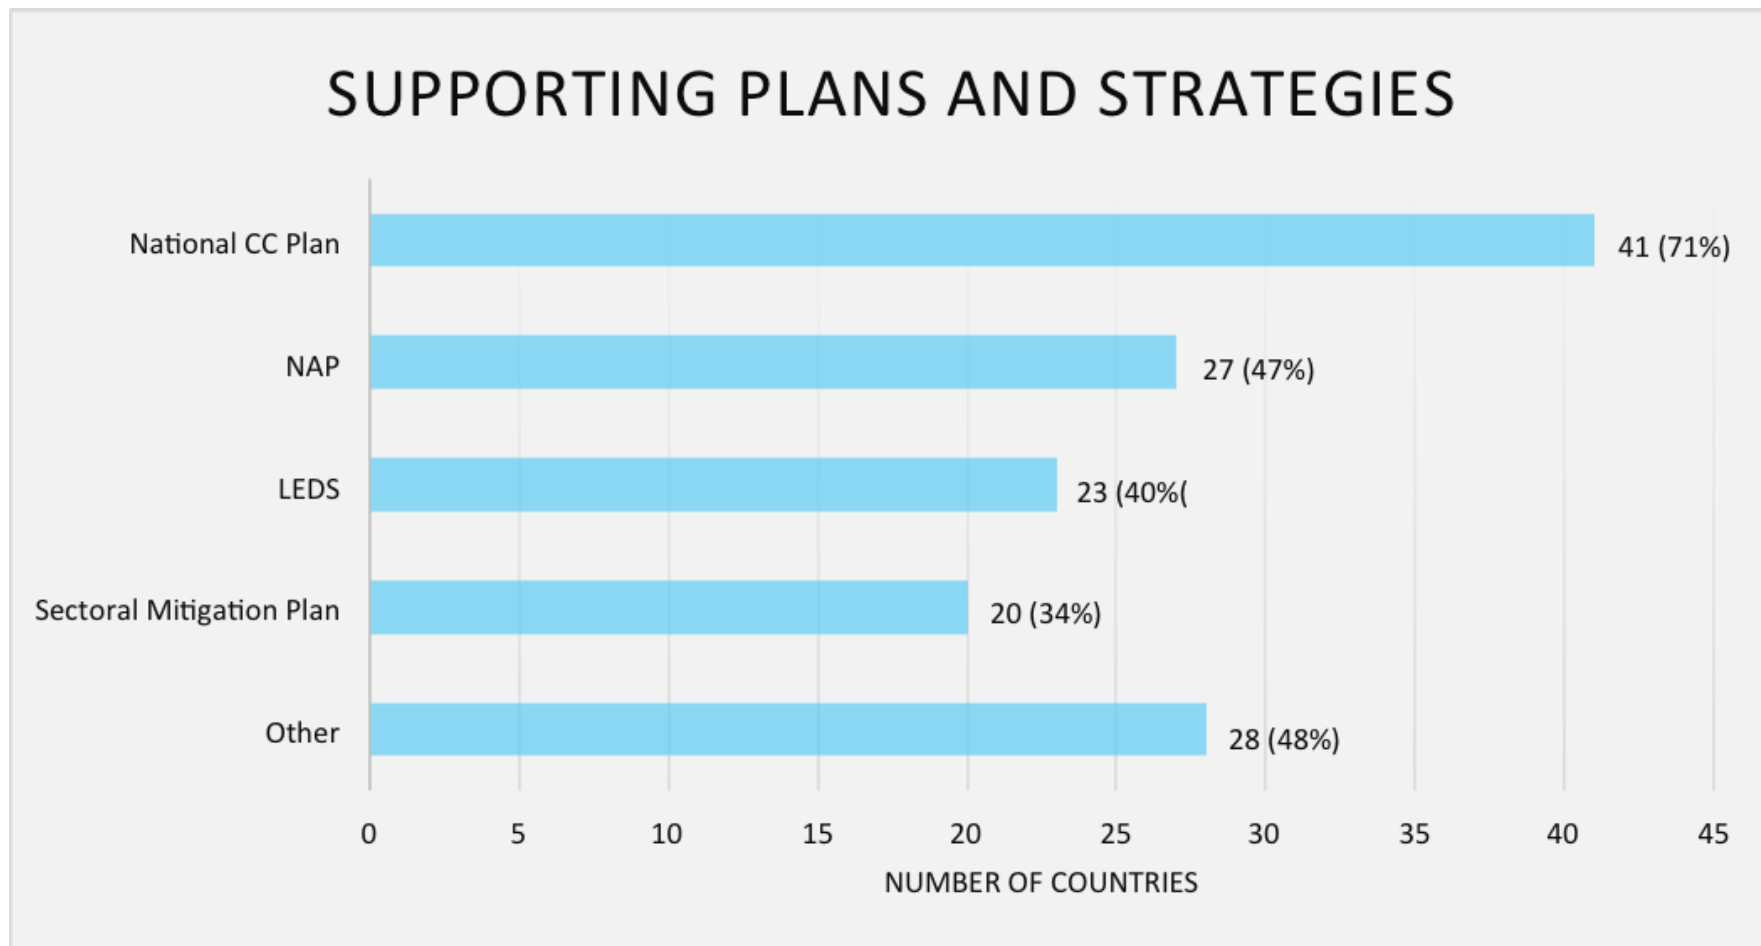

What unilateral means will the country use to mobilize financing?

- Policy and regulatory actions
- Role of public expenditure and public finance institutions
- How private finance will be mobilized

What is the strategic basis for requesting international support?

- **How will support drive increased ambition?**
- Rationale for types of financing needed
- Sources targeted
- Specific program proposals to be pursued

WIDE RANGE OF NDC IMPLEMENTATION PLANNING STATUS
