

From INDC to NDC

The Paris Outcome and the Way Ahead

Jan Peter Schemmel, Director Programme Office
of the International Climate Initiative (IKI)

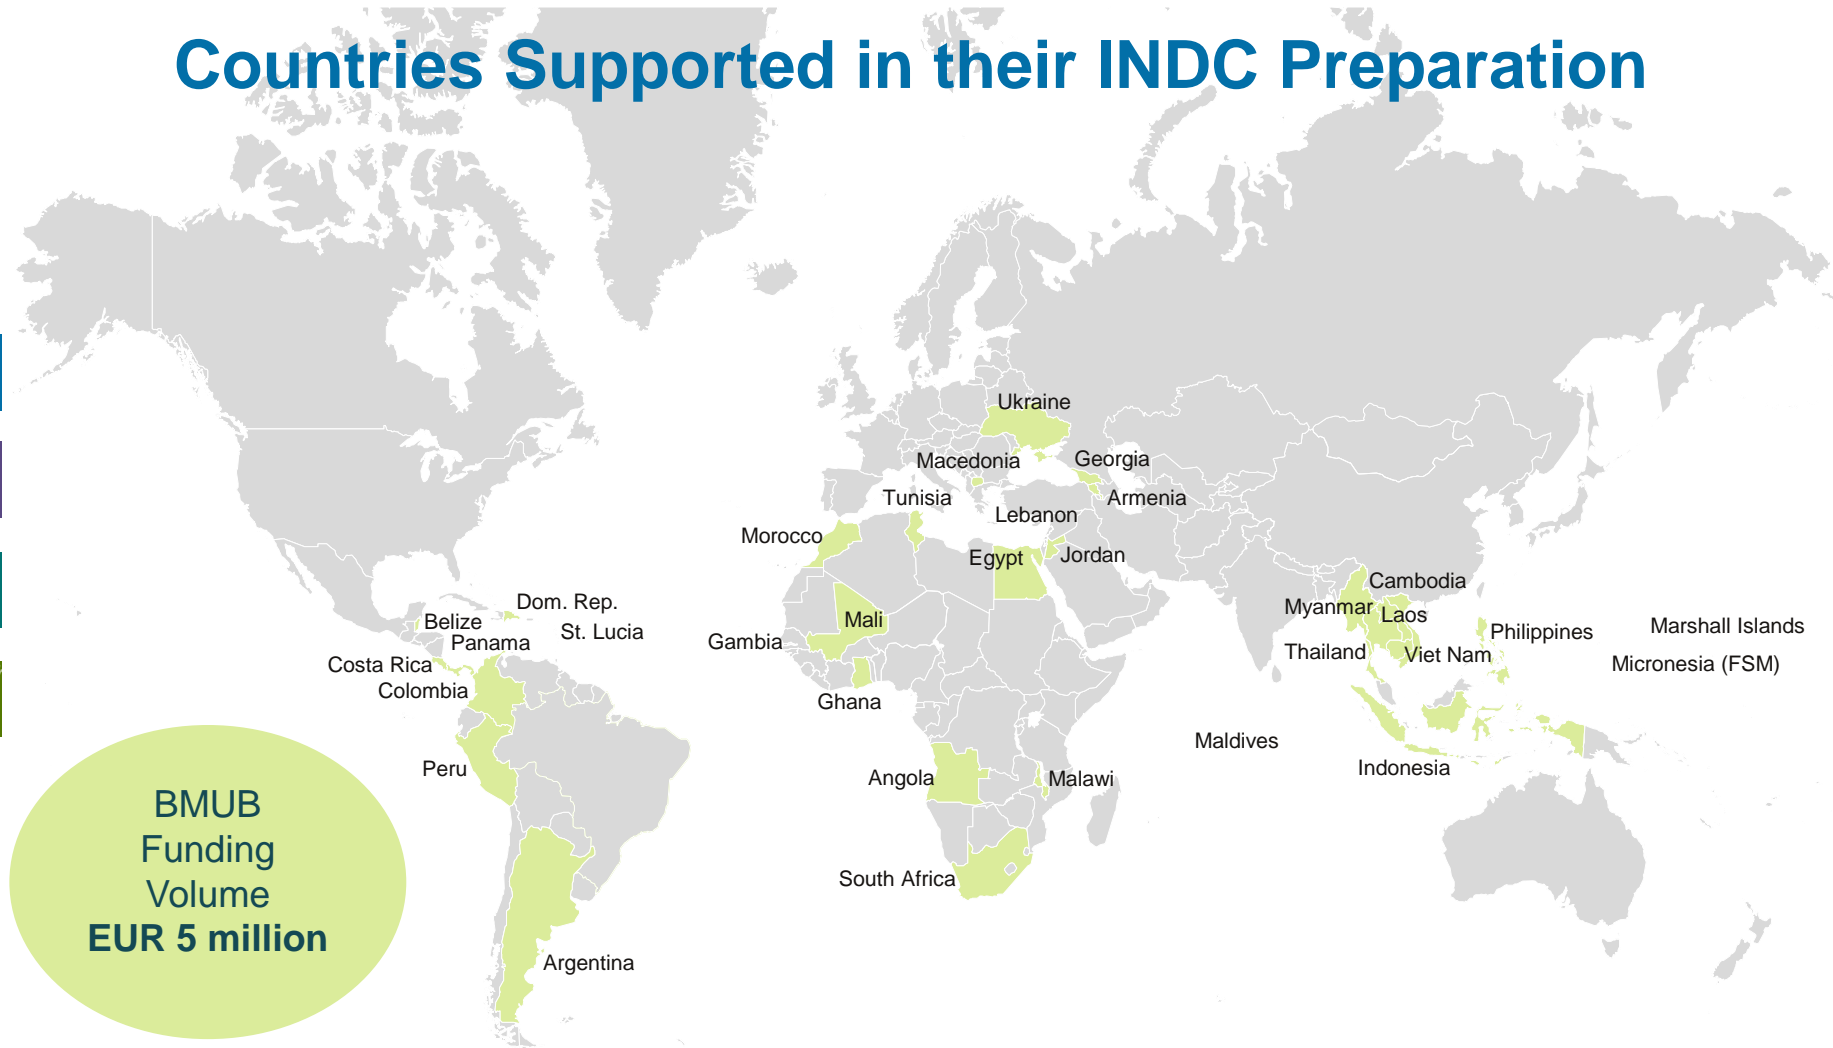

Support for (I)NDC in the IKI

- Through the IKI, BMUB has supported the development of INDCs in 33 partner countries with an overall funding volume of EUR 5 million
- By means of bi- and multilateral cooperation the IKI supported relevant stakeholders in partner countries in the design and decision-making process for INDC preparation

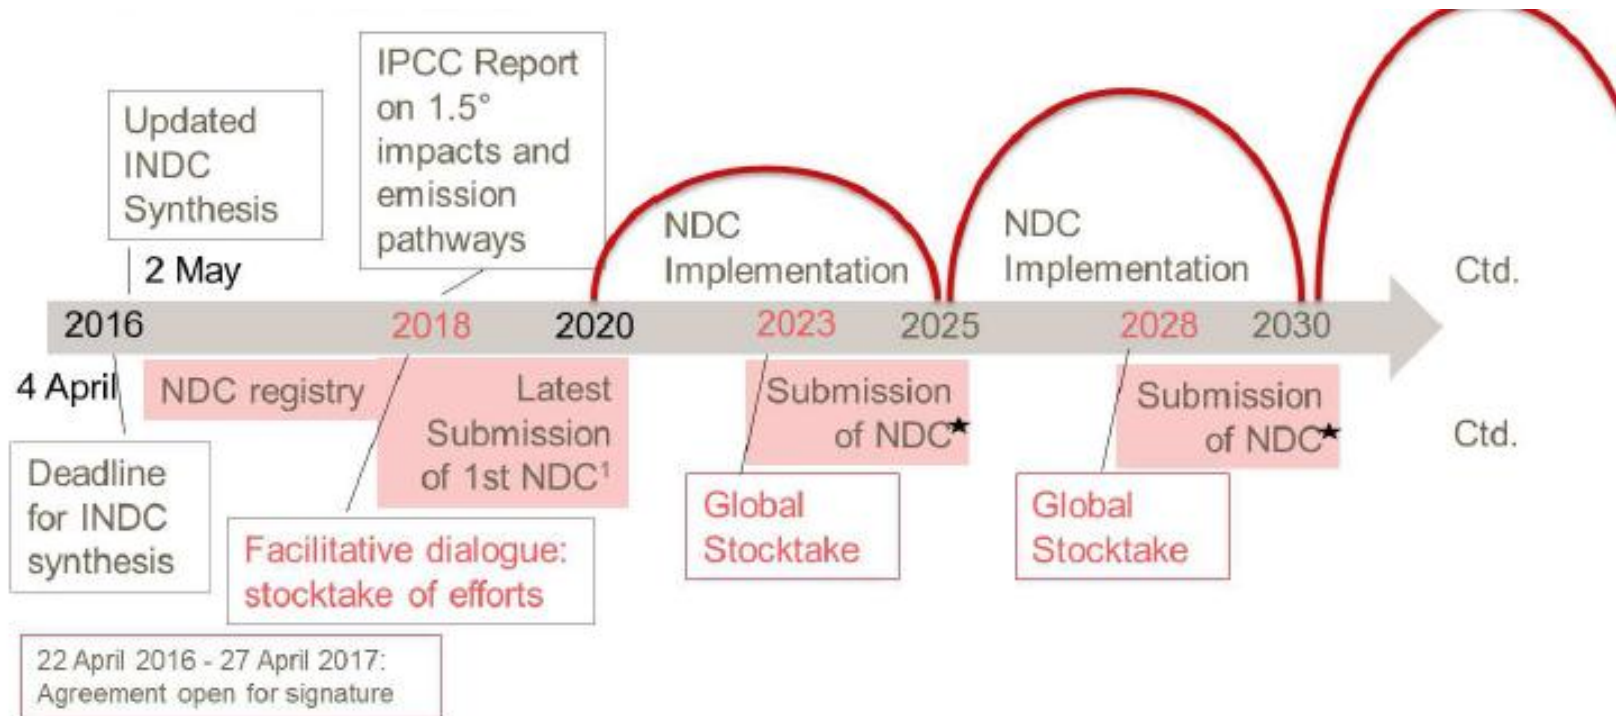

Countries Supported in their INDC Preparation

(I)NDC in the Paris Agreement & Ambition Cycles

➤➤➤ + enhanced transparency Framework

¹ Communication of first NDC no later than when party submits the ratification document (1/CP.21 para 22)

Parties are urged/requested to communicate NDC by 2020 (1/CP.21 para 23/24)

★NDCs shall be submitted at least 9 to 12 months in advance of the relevant CMA meeting (1/CP.21 para. 25)

Learning from INDC Development for NDC Implementation

- Broad participation to build support
- High level political engagement and commitment
- Keep the momentum and the level of involvement
- Join political and technical processes
- Technical support needed to overcome barriers with assessment of technical options, financial and support needs, and the development of implementation plans

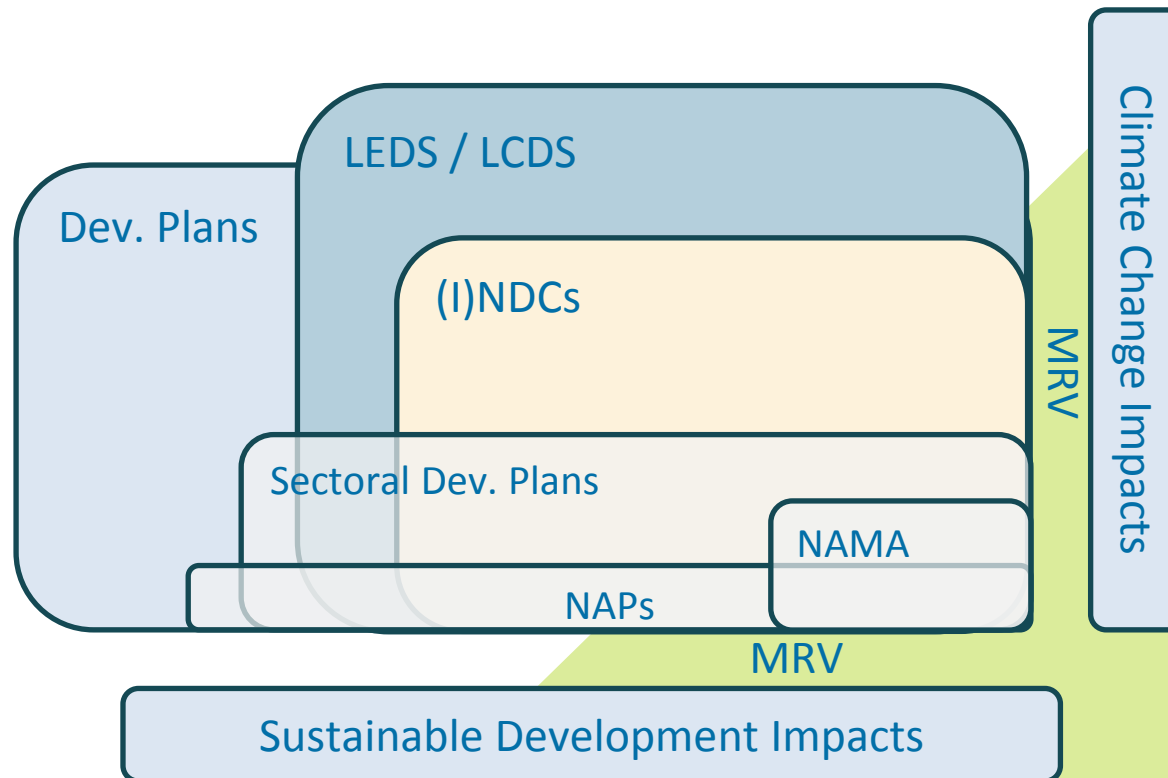

Opportunities of INDCs for NDC Implementation and Their Further Development

- National climate change processes were kick-started, consolidated or enhanced
- Capacity for climate policy planning was increased
- Large number of INDCs (i.a. peer to peer learning)
- Experience for updating INDC in course of the 5-year review cycles

(I)NDCs in the Context of National Policy Planning

Challenges for NDC Implementation & Support

- Conversion of INDC into NDC
- NDC implementation planning
- Financing
- Raising ambition levels
- MRV
- Co-benefits
- Capacity building for NDC implementation

IKI's Programmatic Approach for NDC Implementation - Objectives

- Make the IKI-contribution towards NDC-implementation more effective
- Making use of political momentum, creating conditions for a fast implementation of NDCs and increase of ambition over time
- Steering, knowledge transfer and use of synergies for a coordinated NDC-support
- Ensure complementarity towards other initiatives and donors

IKI's Programmatic Approach for NDC Implementation – Set-up

- Relevant project proposals from 2015 call for proposals
 - Implementation support in country,
 - Exchange and learning on regional level, and
 - Development of guidance and tools at global level
- Involving further organizations to bring in specialized know-how and/or coordinate in-country support
- First informal alongside COP21; Inception Workshop on 10/11 March 2016 in Berlin
