

A photograph of several white wind turbines against a blue sky with scattered white clouds. The turbines are positioned on the left side of the slide, with the largest one in the foreground and others receding into the distance.

Financing NAMAs – Contributing Country's Perspective

Global NAMA Financing Summit
Copenhagen, May 15th 2013

What Should Funders Be Looking For When financing NAMAs?

What should funders be looking for – cont'd

Well designed proposals, following extensive domestic stakeholder consultation
 Ambitious but realistic work programme, capable of implementation
 Capable proponent with relevant mandate, technical and financial capability

Good leadership by lead agency (national champion)

Evidence of strong partnerships

Coordination e.g. Interministerial committees

Role of private sector

Builds on existing sector policy, but strengthens ambition

Clearly linked with national climate developmental policies & priorities

Potential for scale up and replicability

Availability of data or credible plan to get it

Good baseline, credible statement of the counterfactual

Clear and measureable indicators

Full set of metrics
 GHG & co-benefits

Overcoming financial barriers

How will funds be deployed, how much over what period

Leveraging impact of donor funds

Cost of financing
 Performance based?
